**ARK** partners with rural communities to feed, keep kids in school, and create new income. ARK is rrridiculously serious about creating solutions with the community. It only invests in communities that invests in themselves (and don't want hand-outs), and only in solutions, like its award winning \$15/kid/year ARK Lunch, that locals champion, and can afford to sustain on their own. It tracks impact and cash flows, and creates a better future for all involved in the journey - student, teacher, parent, community, investor, ARK die hard. It is a 501(c)(3) organization in the US, collaborates with talent and welcomes support from all over the world.
